SUMMARY

Performance-driven Software Engineer with 2+ years of professional experience building high-throughput full-stack solutions. Adept at eliminating business architecture friction through robust systems design while actively engaging in open-source software initiatives.

EXPERIENCE

MEET IT CONSULTANCY

Freelance | Software Engineer

Jan 2025 - Present
Gandhidham, Gujarat, India

- Partnered with 3+ local corporate entities to analyze technical requirements and scope high-performance software strategies.
- Architected a centralized ERP infrastructure, an optimized corporate web platform, and a cross-platform mobile application, decreasing manual data overhead for clients by 30%.

HUPP TECHNOLOGIES PVT. LTD.

Junior Software Engineer

Apr 2024 - Dec 2024
Ahmedabad, Gujarat, India

- Integrated Etro.js timeline multi-threading within a Vue.js web client, optimizing browser-based workflows for 10+ ad agency creative teams.
- Authored a modular, asynchronous Node.js FFmpeg stream wrapper that minimized server-side processing overhead and reduced video encoding rendering times by 50%.
- Engineered a real-time corporate messaging architecture using Next.js and MongoDB, utilizing server-side socket-to-user session mappings to eliminate packet drop rates.
- Maintained strict payment compliance policies by integrating structured Stripe webhook gateways to automate transactional billing workflows safely.

PROJECTS

MCP - ERP SOFTWARE (mcp.meetitconsultancy.in)

Feb 2026 - Present

- Built a multi-tenant accounting and data entry platform using a modular Rust Cargo workspace architecture, reducing overall compilation cycles and decoupling domain models.
- Established secure, automated sync pipelines to query external government tax compliance endpoints, eliminating manual operational risks for financial audits.
- Designed a row-level database mutation logging schema for complete system transactional auditing, backed by a sub-second financial rendering engine using Typst to generate invoices.

Tools: Rust, Axum, Typst, JavaScript/TypeScript, React, Tailwind CSS, React Native, Shadcn UI, REST API, Redux, Vite, TanStack Start, Zod Mini, React Hook Form, PostgreSQL, Terraform

Web-Based Timeline Video Editor

Jul 2024 - Dec 2024

- Developed a lightweight, browser-native digital asset manipulation interface featuring reactive custom track layers managed via Pinia global state states.
- Handled compute-heavy encoding workloads by routing client canvas frames to a multi-threaded backend processor configured with custom profile optimization flags.

Tools: VueJS, Vuetify, EtroJS, Pinia Store, FFMPEG, NestJS, NodeJS

SKILLS

Languages	JavaScript/TypeScript, Rust, Python, Java, SQL/NoSQL, Flutter, React Native, Android App, Kotlin
Libraries & Frameworks	React, Vue, Tailwind CSS, Shadcn UI, React Hook Form, Zod Mini, Formik, NestJS, Sequelize, Next.js, MUI, Base UI, Node.js, Axum, SeaORM
Tools & Platforms	Git/GitHub, Linux, Docker, DigitalOcean, Stripe, RazorPay, Terraform

EDUCATION

GLS UNIVERSITY

Master of Science in Information Technology (MSCIT) | CGPA: 7.63/10.00

June 2022 - April 2024
Ahmedabad, India

KSKVK UNIVERSITY | DNV INTERNATIONAL EDUCATION ACADEMY

Bachelor of Computer Applications (BCA) | CGPA: 7.61/10.00

June 2019 - April 2022
Gandhidham, India
